Virginia was probably the screwiest state on election night. Trump ahead by 300,000 at 90+%. Even with the very blue NoVA still being tallied, there's absolutely no way that Trump could've ended up losing by 400,000. Fox News calling VA at 1% was mind blowing.

They used the same tired prediction that Northern Virginia wins the election for the state and called it. But VA was red until I went to bed, after the states stopped counting. Then bullshit happened.

The media "called" it for Biden while the election was still going on and *while Biden was behind*:

I remember watching this live and having absolutely no understanding of why they were doing this. Trump was ahead massively with only like 10% of the vote left, basically all the democrat strongholds already accounted for, and yet it was called for Biden. WTF?

Some of the top guys at Fox(I'm guessing Paul Ryan) knew the fix was in for Biden. They used VA and AZ to demoralize us. They thought we would just blindly accept a Biden presidency.

If Trump had performed as poorly as the polls had suggested - I.E. -5 to -10% as incumbents usually do, then Biden creeping over the top would've been a believable scenario to the normies.

But, Trump increasing his vote by over 15%, threw a massive spanner in the works. It meant that Biden had to pull bullshit numbers in order to get over the top. Bullshit numbers, which are clearly bullshit, even to normies. There's no WAY Biden did better than Obama when he hardly campaigned at all. There's no WAY Biden won the vote while winning fewer counties than *Hillary Clinton*. There's no way Biden won while the down-ticket votes were so clearly dark, dark red.

They should've aborted; it's way too obvious.

I was thinking about this today, I no longer believe in a true organised Deep State. I think it's a nest full of none-too-bright traitors, grifters and commies. A true Deep State would've bargained with Trump. "OK Mr Trump, congratulations on winning the election, what's it gonna take for you to leave after your first term? A wall? Voter ID? No problem, we can do that." Then they could just suck it up and go back to fleecing to the blind general public in four years.

But no, instead we ended up with a clusterfuck on the global stage, where Trump is clearly going to have to go nuclear in order to save the Republic and anything less will mean the acceptance of obscene government corruption which would signal the end of support for democratic values across the Western World (and you all know how that is likely to turn out) - All future governments will be Weimar Republics.

They thought the regular "wait until the red counties report, then Fairfax will just make up whatever number they need for a Dem win" would work like it always has, but then we Virginians voted for Trump like mad, and they didn't have enough voters in Fairfax to flip it! So they had to quickly shuffle the outcomes over and over there and in other blue districts to fake the Biden win in VA.

They had like 95% turnout in some precincts where Biden got a 100% more votes than the Democratic candidate for the House seat. It was obvious that they stole the Senate and the presidential race in that state.

VA made precincts untraceable. VA voters normally are assigned to precincts. Instead, all "mail in ballots" got designated to a special "mail in precinct" Correct me if I'm wrong, but VA didn't do this before.

Yep, deep state took complete control over VA through cheating. They **hate** Trump supporters, more than you could even imagine. Overheard, "We'll make those f\*\*king deplorables *pay!*" before the last VA state election, when they stole the legislature.
